- Community reaction/Involvement
- Work progression
- Work completion
- Handover of school
- Comments from EAPH and Lafarge Management
- Community sentiments and rewards
- Requests from the community
- Cost summary
- End of report

# Background

- Through the Corporate Social Responsibility, East African plant hire embarked on the completion of the construction of Saint Pauls Nyakakindo Nursery and Primary school
- With the help of the Hima local authorities and the community leaders the project commenced
- Initially the school was started out by the community but due to meagre resources, progress was very minimal
- East African Plant Hire actually came in at an opportune time when the school was in dire need of external help
- In essence, the school which consists of a one by two classroom block, had no doors and windows
- The floors were not done and learners were actually sitting on the floor as they were being taught

# Project Initiation

# Project Initiation

# Project Initiation continued

# Community Reaction /Involvement

- The community received this project with mixed feelings
- There was a lot of doubt and scepticism as to whether East African plant Hire can actually do this project
- Some companies that came before EAPH started doing something on this very school but failed to honour their promises of completing the construction
- Some came to question why EAPH was doing the project and what was in it for them
- Eventually we won the hearts of the local Authorities and the community leaders who gave us guidance and cooperated with us up to the completion of the project

# Work Progression

4	Town clerk
5	Clergy ( church Of Uganda)
6	District education officer
7	Resident District Commissioner
8	Inspector general of schools
9	Quarry Manager Lafarge
10	Production Manager Lafarge
11	General Manager EAPH
12	Plant Manager Lafarge (Hima Plant)

# Comments from EAPH and Lafarge Management

- EAPH management thanked the community leaders and local authorities for their support
- They re-emphasised their unparalleled support for the community and education of a child for that represented hope for the future
- Also pointed out other projects done for the community like Garbage collection at markets and safety awareness sensitisation
- Lafarge Management advised the community to look after the school and guard against vandalism
- A personal commitment was made by the production manager Lafarge to provide the school with soccer balls

# Comments from EAPH and Lafarge Management

Production and Quarry Managers(Lafarge)

Site manager EAPH

# Community sentiments and rewards

- There was a lot of praise from the community and political leaders
- They thanked EAPH for being a faithful taxpayer to the government
- And actually pointed out to Lafarge to help fish out contractors working under them who are failing to remit their taxes to government
- They recognised EAPH's relentless effort to staying true to their commitment
- They were full of praise for EAPH as they marvelled at the newly constructed one by two classroom block
- They also thanked Lafarge for having come to their aid sometime back and constructed the ablution block
- In addition they encouraged Lafarge to consider giving more work contracts to EAPH for they represented a company which had the local community at their heart
- EAPH was reward with a goat from the community

# Community sentiments and rewards

# Requests from the School / community

The following things were requested for by the school /community

- Borehole and a water tank to be erected at the school
- More blocks of classrooms to be constructed as more pupils are being enrolled at the school
- Sports facilities and sports attires as this will make the school more attractive for more enrolment
- More textbooks for pupils as there is a limited number to carter for the learners at the present time
- A school flag as there is none at the moment
- consider employing from the local community as well

Other requests:

- More teachers on goverment payroll to be transferred to the school
- More goverment funding and grants to help in the day to day running of the school

# Official handover and opening of the school
